

Child Dives Out Train Window for Balloon; Unhurt

Richmond, Va.—Two year old Woodson W. Woodward of Richmond lost his toy balloon through the window of a train traveling 30 miles an hour near here, fell from the train when he reached for it, and was found later by a farmer, walking contentedly along the tracks, unharmed in hand. He was uninjured and was returned to the train, which had stopped to permit passengers to search for him.

2 MORE TRAINS OFF FONDY RUN

Coal Shortage Causes Stopping Two Others West of Elroy.

Two more trains have been taken off on the Chicago & Northwestern railway between Janesville and Fond du Lac. This leaves only two trains daily, one each way, on that division. The trains taken off are No. 829, arriving at 6:45 from Fond du Lac.

No. 828, leaving at 7:30 a. m. for Fond du Lac.

The shortage of coal is given as the cause of the withdrawal temporarily of these trains. With this announcement, it was stated here that trains No. 808 and 807 on the Northwestern between Chicago and Minneapolis, through Janesville, will not be operated west of Elroy.

This makes 56 trains cancelled in two weeks.

Golden Rule Only

Strike Cure-All,

Says Local Pastor

Application of the Golden Rule to industry, and especially in the present railroad and coal strikes, was given by the Rev. J. E. Corn, pastor of the Carnegie Memorial M. E. church as the "cure all" for industrial unrest in his sermon Sunday night. The minister had hoped to deliver a religious address, but he had a railroad official to speak, having announced a week ago, but announced no reply was received from one of the roads going through here while the other stated fuel would be added to the flames.

The minister outlined the various schemes mentioned for halting strikes, giving four. He spoke of cooperation through which cooperation between the employer and the worker, the suggestion of some placing all heads of firms and employees on a common wage basis. He dwelt upon a plan advanced of limiting the right to strike.

Declaring that all the trouble in the world today is due to selfishness, the pastor said the Golden Rule is the only way of getting at the bottom of the situation.

MISS WEST WILL STAY IN RUSSIA 3 MORE MONTHS

PROF. WEST'S DAUGHTER DELAYS HER RETURN HOME.

IS NEEDED BADLY

Political Situation Complicated; Shortage of Bread; Takes Vacation.

Although she had been expected to return to the United States in the near future, Miss Miriam West will remain in Moscow another three months. She is the daughter of Allan B. West, Milton Junction, former instructor in agriculture at Janesville high school.

A message from Sybil Jane Moore, assistant secretary of the Quakers at Philadelphia, whom Miss West represents in Russian relief work, states that she has volunteered to remain because of urgent needs of the situation. Her work is considered invaluable by the relief organization.

Approval of Miss West's plans has been given by her family.

Situation Complicated

Political conditions in Russia are so mixed, says Miss West in her latest letter, dated May 8, that they are hard to interpret. She says:

"You ask about the political situation, government, etc. I don't like to write about it for there is such difficulty in giving the correct impression of conditions here. You know, they carry all over the big country, and in addition we get very little news of the rest of Russia. We only know about the little place where we live and that through the interpreters."

Takes "Vacation"

Miss West has been on a vacation. It is not a trip to the mountains or the seashore, or a "mountain" outing. She accompanied a party of relief workers on a search for a freight car of tractors, they doing the work while she rested. The letter happens to be written from the Siberian Station Yards. The tractors were used in spring plowing, the government furnishing seed and men while the Quakers did the planning and planting. The products are sent to homes for children.

Leaving headquarters at Surochinskoye, the party went up the line (Continued on page 3)

DR. SUN TROOPS IN VICTORY, IS CLAIM

Capture Many of Chen's Soldiers in Action, Is Southerner's Claim.

(BY ASSOCIATED PRESS.)

Canton.—Sun Yat Sen, deposed president of the South China republic, announced Monday that his forces had captured several hundred troops of Chen Chung Shing in the vicinity of Yang Tze, about 10 miles north of Canton. At Chen's headquarters, however, it was asserted that only a few of Chen's soldiers had been captured.

Sun Yat Sen appeared optimistic, predicting he would be re-established soon as head of the Canton government—the position from which he was driven by Chen Chung Shing.

Gambing has been resumed throughout Canton and Sun declared his forces were paying Chen's soldiers more than \$1,000 a day for this privilege.

Irish Insurgents Driven to Hills; Casualties Heavy

(BY ASSOCIATED PRESS.)

Dublin.—National army troops have gained a fresh victory in West Ireland by capturing Ballymunnis, County Mayo, from the republicans, irregulars, it was announced Monday.

The casualties have not been accurately estimated, although it is known at least 15 of the national troops were killed and 87 wounded. It is generally believed at least 30 irregulars lost their lives. The total number of casualties suffered by the free staters during the capture of Waterford was nine killed and 19 wounded.

REBELS FLEEING INTO MOUNTAINS, IS REPORT

London.—Unconfirmed reports received in London Monday said that the irregular forces were retreating with all speed into the Galtee and Knockmoldown mountains, harassed by free state troops, who are pressing them hard and preventing them from concentrating for resistance.

A Waterford dispatch to the Daily Express says the irregulars have burned the barracks at Clonmel and Tipperary, which had long been held as garrisons, and it is believed the national army forces have occupied both these places.

Attitude of Waiting Seen in Washington; Trucks Move Perishables.

(BY ASSOCIATED PRESS.)

Chicago.—With government officials maintaining silence in regard to the railway strike, except for the announcement of Chairman Hooper that the labor board would make no further move at present, interest Monday was centered in the separate peace efforts of officials of the Baltimore and Ohio railroad, in their meeting at Baltimore with representatives of the striking shopmen. Despite the failure last week of similar efforts made at St. Paul, it was expected that the Baltimore conference would obtain favorable results.

Should the meeting result in an adjustment of proposals was expected that other railroads would follow their same course.

The silence of federal officials was interpreted as meaning that the situation drift toward a few days while he received the report of Secretary of Labor Davis and further inquired into facts.

Blanche Walker, 41, Janesville, was killed Sunday afternoon.

The passenger train struck the Hoffman car and pushed it down the tracks.

Chief Gilman said he thought it was going to stop for the oncoming train. Instead, it rolled onto the tracks and struck Mrs. Hoffman.

Hoffman opened the doors and got out. Mrs. Walker, because she was in the back seat, did not escape.

The train struck her and hurled her on the sidewalk after severing the left leg, breaking her neck and fracturing her skull.

"SIMPLE COUNTRY FOLK" WATCH CHOO CHOO WITH POLICE

(BY ASSOCIATED PRESS.)

Birmingham, Ala.—When police answered a riot call at the Louisville and Nashville railroad shops at Boyle, early Monday morning, they found a crowd of approximately 250 men, women and children, armed with sticks and mighty snave spokesmen. They were waiting for a work train taking workmen into the shops.

"What's the trouble, boys?" Chief of Police McDuff called, piling out of an automobile.

"We're waiting for a work train taking workmen into the shops," the train go by," the leader of the crowd replied. That all right?"

"Fine," said the chief. "We want to see it, too."

So they all watched the train go by. There was no disorder.

REV. FR. ROACHE IS DEAD; AGED 67

Former Pastor of St. Mary's Here, Succumbs in Milwaukee.

The Rev. Robert James Roache, 67, for 16 years pastor of St. Mary's church of Janesville; 22 years in charge of Holy Rosary church, Milwaukee, and rector of St. Mary's church of St. Mary's, died at a Milwaukee hospital at 4 p. m. Sunday.

Death was due to a shock from a broken hip sustained last Wednesday in a fall from a Milwaukee restaurant after attending a meeting at the residence of Archbishop S. G. Messmer.

He had been in ill health many months, his condition causing him to retire from Holy Rosary church, St. Mary's, in January 4, 1921, and assume charge of St. Mary's parish at Milton Junction where the duties of the small parish were less strenuous. Rev. J. J. McGinnity, rector of St. Mary's, died at St. Mary's.

Came Here in 1882.

Rev. Fr. Roache was born in Oshkosh, Wis., in 1855. He attended St. Mary's seminary, Milwaukee, in 1872, and was ordained priest by the Rt. Rev. Michael Heiss, bishop of La Crosse, on June 27, 1880.

Rev. Fr. Roache's first parish was at Neenah, Manitowish County. On June 1, 1882, he was appointed pastor of St. Mary's church, Janesville.

Here he remained 16 years, working indefatigably in the interests of the church. He saw the present cathedral erected and organized the married ladies' sodality. He was sent to Milwaukee as pastor of the Holy Rosary church, Aug. 1, 1896.

When he took the Holy Rosary parish over there were less than 250 families in it. Since that time St. Mary's parish has been established, taking all the families of the city.

The region north of Lincoln is now St. Robert's parish. Today, however, in spite of the loss of territory, the parish comprises about 650 families.

Funeral services will be conducted at Holy Rosary church at 10 a. m. Wednesday. Interment will take place at Doylestown on Thursday.

Father Roache is survived by a brother, John P. Roache, and a sister, Margaret, of Milton Junction.

St. Louis Region Transferred to 6th Corps Area

(BY ASSOCIATED PRESS.)

Washington.—The St. Louis region, the largest regular army post in the vicinity, has been transferred from the seventh corps area to the sixth corps area and hereafter will be under the direction of Major General Bell at Chicago. It was learned Monday at the war department. The change gives General Bell a considerable addition to the territory under his command.

There are many important railway centers, and while the reason for the transfer of the command was not disclosed, it was generally understood to be in connection with the possible use of federal troops in event of disturbances arising from the rail strike situation.

BLANTON OPPONENTS RUNNING CLOSE RACE

Dallas, Tex.—General interest in the outcome of the first democratic primary election, held Saturday, narrowed down to the question an opponent for Congressman Thomas L. Blanton in the second "run off" primary, Aug. 26. Representative Blanton had 3,889 votes, with half the total unofficial votes of the state counted from practically all counties. Former Congressman Oscar Calloway, 3,369 and J. B. Charles, 3,208, were 33,000 votes behind Earle E. Mayfield, who was holding his lead of 24,000 over James E. Ferguson. U. S. Senator was A. C. MAINTENANCE OF SANE PRICES ALSO PLEDGED AT MEET

OPERATORS CONFER WITH HOOVER ON FEDERAL SCHEME.

LEGALITY UPHELD

Proposal Comprehensive and Practical, Says Attorney General Daugherty.

(BY ASSOCIATED PRESS.)

Washington.—Operators from producing districts of six states, in conference Monday with Secretary Hoover, agreed in principle with the administration plan for maintaining prices and insuring fuel distribution during the strike emergency.

Immediately on adjournment of the first meeting, the chairman of the program and operators representing the various districts went in session with Mr. Hoover to draft the details of the coal control plan which will be submitted to the full conference. It was expected the detailed program would be ready for submission at another meeting of the conference late Monday.

One proposal laid before them by Mr. Hoover providing for the tightening of existing voluntary agreements to maintain fair prices, and the other four, establishment of coal pools in the producing districts, for preferential distribution under the authority of the interstate Commerce commission.

Attorney General Daugherty was preparing to report to Mr. Hoover during the day upon the legal phases of the emergency coal control plan and it was understood that price maintenance was up for first consideration by the conference.

Not Strike Settlement

Mr. Hoover was understood to take the position that the conference was held to deal generally with the coal problem and not to consider means for settling either the coal or railroad strikes.

Representatives of coal dealers were present at the opening of the conference and it was thought their cooperation would be sought in the effort to prevent advancing fuel charges during the continuance of the present situation.

Under the department of justice announced that Attorney General Daugherty had submitted an opinion to Secretary Hoover, "sustaining every phase" regarding the coal control plan in connection with the coal shortage and distribution.

Calls Plan Practical.

"While the merits of the plan were particularly submitted to me for consideration," the attorney general's statement said, "yet I desire to say it is most comprehensive and, in my judgment, practical, and I am endorsing it because of his vast experience and capabilities and with the cooperation

Employment Is on the Increase

Madison—Increased employment in practically every line is shown by reports conditions in June, the data for which has just been compiled by the industrial commission. In stone and allied industries, metal working, building and construction work gains are shown throughout. The leather working industry shows gain except for the tanning. Pulp and paper mills of the paper production show gains, while box manufacturing and other paper products show decreases. Hosiery and knit goods show decreases, the balance of the clothing industry showing gains. Flour mills were on the decrease due to meat packing, milk products and canning increases. During the month 12,340 placements were made by employment offices. Building and construction work, including machine and machine work and transportation took on the most men. In general, little unemployment is reported among the skilled workers. Crop outlook and approaching harvest has strengthened demand for farm help.

VILLA WATCHED BY OFFICIAL MEXICO

Authorities Skeptical of Reformation of Former Bandit.

Mexico City—Despite his repeated assurances that he is no longer a bandit but a gentleman farmer of the state of Durango, the movements of Francisco Villa are being closely watched in official circles here. To some observers it is difficult to believe that this former guerrilla has accustomed himself to the routine of ranch life and is now finding in his growing crops and lowering herds the contentment that a man of his tremendous nervous energy derived in the past from daring deeds of warfare. Is Villa the staunch friend of the Obregon administration that his friends claim for him? Will Villa stay out of politics and play no part in the forthcoming congressional elections? In the event of a serious threat against Obregon's power would Villa rally his 4,000 ranchers in behalf of the president or would he lead his men in a new revolution? These are the frequent questions of the state here, and the answers are as varied as those who make reply. One Big Achievement. The pacification of Villa is proclaimed by the friends of Provisional President Obregon as the one big achievement of his short administration in 1920. To secure the peace pact with the famous bandit it was necessary for the Mexican government to grant him an extensive tract of land on which his faithful followers, numbering some 4,000, might work and prosper. There was also a transfer of considerable cash which Villa said he needed to develop his new ranches. It also understood that the services will be in charge of the agreement was that Villa was to stay out of politics. Villa settled in the state of Durango and the few persons who have visited his hacienda report that he is an enthusiastic farmer. Of late, however, stories have been creeping out of the north to the effect that furrowed fields and blooded dairy stock are commencing to fail and that Villa is spending the money of Columbus is making just a trifle in the state politics of Durango. Some reports are that he has been asked to run for governor and has consented, but persons close to the man deny the rumors. No matter what the facts, the uncertainty of Villa's action is causing considerable comment in the capital which within the past two months has been out on the quiver of nervousness over "authoritative" statements that the Durango rancher was on his way to Mexico City to consult with his president. He has never arrived and there is small possibility that he will come. Defers or Offends. All of which has merely served to revive the months' old questioning—will Villa stand fast no matter what turmoil might arise in Mexico City? One is to believe stories of Villa's heat in the past and nothing more. On the other hand, visitors at the ranch say that the Canutillo arsenal is well supplied with arms and ammunition. But, as they say, Villa must arm himself to protect his ranch from bandits.

The "Henry and Me" pals, Gov. Henry A. Allen of Kansas and Henry Allen White, Emporia, Kan., publisher, have come to the parting of the ways because of divergent views on the rail strike. Governor Allen ordered his executive staff to conduct a study of the anti-boycott provision of the Kansas industrial court law. Mr. White had with him a number of dogs, two of which were killed by jaguars. The scientist believes that July 30 percent of the birds and animals he shot were lost because of the jaguars. Mr. White could make their way into the jungle to the point where they fell. He used dynamite to secure his fish spears. Mr. Huber emerged from the jungle region weighing 160 pounds less than when he entered, at which time his weight was 180. Although he had lost flesh during his expedition, he was not ill and with fever immediately it was over.

CENTRALIZATION OF U. S. BOARDS IS HARDING AMBITION.

continued from page 1. of seniority rights only in an extreme emergency, and have constantly postponed putting it into effect to give time for a reconciliation. Mr. Harding and Mr. Hooper find themselves compelled now to arrange some compromise of the present difficulty on seniority rights. They might have accomplished this many days ago if they could have sat down, face to face, and talked it out. The president feels the labor board ought to be a part of the Interstate Commerce commission. The board, which has been sitting in Chicago, fixes the wages of the railway employees—the largest item of expense of the government—and has a direct influence on the income of the roads. The one bears a close dependence on the other. Should Sit Together. The president insists that the two boards ought to sit down together occasionally and compare notes. Figures and statistics, it has been said, can be made to prove anything. Rail executives sometimes have an objection to the costs of operation and the Interstate Commerce commission has another. This was forcibly illustrated in the big decision of the commission on rate reductions effective July 1. The commission practically decided the correctness of many figures furnished by the road managements. Similarly with respect to costs of living, for the labor board is charged with the responsibility of fixing a just and reasonable wage. The labor leaders claim that the department of labor figures show that a workman cannot live comfortably on the wages fixed by the U. S. railway labor board. A general get-together of all bureaus and departments involved in the transportation problem is inevitable and Mr. Hooper's conference with the president is being followed by other conferences before a solution to the rail strike is found. FINDS FORGOTTEN TRIBE OF INDIANS

Bird Hunter Penetrates to Nicaraguan Wilds After Specimens.

Philadelphia—Wharton Huber, assistant curator of the ornithology section of the Academy of Natural Sciences, returned recently to this city from his little known region of Nicaragua where he assembled a large collection of birds, mammals and reptiles, a number of which he believes have not yet been classified. He also claims to have penetrated to the villages of Sumo Indians who rarely had seen a white man. The collection of specimens include 400 birds, 40 mammals and 2,000 fish, reptiles and insects, all of which will be placed on exhibition in the local institution. 180 Miles Inland. "My research work was done about 180 miles inland from the Nicaraguan coast," said Mr. Huber. "We established our headquarters at a small mining camp whence we made trips further into the country. The average annual rainfall here is 147 inches. From the section of the interior until I left there never was a dry article of clothing on me. The country is infested with red bugs, smaller than fleas which burrow under the skin and irritate the system. The climate is hot. The district is hilly, and covered with tropical forests so dense that it is impossible to enter them until a way is cut by Indians. The only inhabitants are a few scattered tribes of Indians apparently of Spanish and Miskito Indian descent. With a body of these Indians as guides I penetrated to certain villages of the Sumo Indians. "The Sumo men are very skillful hunters, but the tribe is rapidly becoming extinct. With all their ability in hunting and their courage in facing wild animals, they are excessively timid of strange human beings, and will run away even from men of their own race. They are said to hold public dances in which Maskito Indians sometimes walk into their villages and take anything they want without meeting resistance. The Sumos, numbering about 500 souls, are said to be in a slant, almost eyes of the Chinese and their skin is about the same color as that of a Chinaman." Dynamite for Fish. District Attorneys

Asked to Remove

the Standing Bar

(BY ASSOCIATED PRESS.)

Madison—Enforcement of the pro-

hibition of the Severance prohibition act

which prohibits maintenance of a

standing bar in licensed places of

Wisconsin, is asked to them by W.

Stanley Smith, prohibition commis-

sioner. The validity of the law has

been sustained by the supreme

court. Mr. Smith says that active en-

forcement is requested to secure its

operation.

Bans must go, the prohibition commis-

sioner says. Until this section of

the statute was finally upheld, active

enforcement of the provision was not

undertaken by the commissioner, but

now that the supreme court has de-

clared the law in this respect, com-

missioner Smith intends to see that

it is carried out.

In many sections of the state

standing bars have been remodelled

to conform with the intent of the

law, while in other places the old

bars remain standing. A drive will

be made against them in order to re-

move what the prohibition officers re-

gard as an obstacle in the way of

enforcement.

Section one of the removal of

bars will result in a property loss of

hundreds of thousands of dollars. The

law prohibits, however, drinking be-

fore bars, or their maintenance, and

in the opinion of the supreme court

the law is not removed regardless of

the loss entailed.

NEW GOLD RUMORS IN BELGIAN CONGO

New York Business Men Seek Fortune in Land of Deep Jungles.

Washington.—A country nearly four times the size of Texas which was founded by a committee, and now is to be mined by a syndicate—such is Belgian Congo whither a group of New York business men are reported to have gone in search of a stream whose golden pebbles may be scooped up by the handful.

"Since Leopold II turned wistful eyes toward the Belgian Congo, and Henry H. Stanley proved that white men could survive there, this land of the rainbow's end has frequently held public attention. As a result, the Congo has become a subject of the National Geographic Society.

Congo Stirred America. "Once before rumors of gold, together with rumors of cruelty to natives, sent the name 'Congo' echoing around the world. The U. S. senate discussed Congo Free State, and the country then was known as the Congo Free State. It was then that the Congo was declared a free state, and the Congo Free State was established.

"In the year America was celebrating her independence, the Belgian Congo was celebrating its independence. The Belgian Congo was then a free state, and the Congo Free State was established.

What's Shah to Widow? Nothing; Refuses Persian to Wed Baron

Mrs. Peter Brugiere Hewitt, beautiful widow of Peter Cooper Hewitt, millionaire electrical inventor, reported wed to English Baron Robert Ellinger. Only few days ago Persian shah, left Paris in despair after Mrs. Hewitt had refused him. She said: "Regal honors do not tempt me. I shall never marry again." Hewitt died in Paris last August.

Paris.—What's a shah or two among friends, especially when the handsome young baron is in the office? Not much.

In fact nothing at all in the life of Mrs. Brugiere Cooper Hewitt for she turned the Persian ruler down cold, in spite of the warmth of his love-making.

Then, perhaps just for good measure, she up and married Baron Robert Ellinger, and Englishman.

And all this took place just a few short days after the shah had packed up his royal trappings, shaken the dust of gay Paris from his Persian boots and hid himself to his native Tehran.

The shah's persistent courtship of Mrs. Hewitt, whose millionaire husband died last August, has been the subject of gossip for months.

The young monarch, in the course of his suit, bombarded the comely widow with everything from Persian tales of romance to the most modern French love letters.

Then, suddenly, he left Paris. And Mrs. Hewitt said: "Regal honors do not tempt me. I shall never marry again."

And then, almost before the words were out of her mouth, Mrs. Hewitt married the Englishman.

SUMMER READERS DEMAND FICTION

"Heavy" Reading Not Popular in Warm Weather—New Books Added.

A mental picture of the public library, with doors closed, books gathering dust and the staff off on a "foot" seems to be prevalent when people think of the demand for books falls off in summer, how so-and-so is on her vacation, and how events in the literary world, as in the theatrical, are dead during the hot summer months.

But even though the doors at the library here are closed a little longer during summer, the books are far from gathering dust. The minds of the staff are on too many library matters to be much concerned with vacations.

The demand for books does fall off, and what demand there is, is mainly for lighter reading. People do their heavier reading of the classics—why reading an interesting world classic is considered harder than wading through a typical modern novel is not clear to some people.

VOICE OF THE PEOPLE

Editor Gazette:

In reply to "another Old Timer" there is much to be said against his way of thinking. It will be said that "All work and no play makes Jack a dull boy," but old timer, are the majority of children who play, old enough to be put to work? Indeed not.

You were once a boy, possibly more than three score years ago, along in the seventies, times have changed, the modern boy and girl are not put to work at the tender age they were sixty years ago. There are now laws prohibiting it.

In a city the size of Janesville have the children a yard to play in? Not much of a one—any. What is an hour or two of play every day? Where is the rest of the day to be spent? Can you tell me that? Some of your suggestions may be useful.

Who says that the Mothers haven't anything to do but to touch the child's head to make doll clothes? There, old timer, you have made a serious mistake—Who got your meals? And who will get the meals for these children? Who cleans the house? Who makes clothes for the children? Rome was not built in a day, neither are these things accomplished in a few hours.

Think it over, old timer, would you want your child to be put to work before he or she was sixteen years of age? I should sincerely hope you wouldn't. Exercise and fresh air are essential even after one is sixteen years of age, so why rob the children of all these necessary things.

I do not mean that they should spend the day in yelling and making noise. I should sincerely hope you wouldn't. Exercise and fresh air are essential even after one is sixteen years of age, so why rob the children of all these necessary things.

Morgan Talks to Railroad Men at Eland Junction

Eland, Wis.—Before a meeting of railroad men this morning, Attorney General William J. Morgan, independent progressive republican candidate for governor, pointed out that economy in governmental administration can be brought about only by reducing its cost. The one way, he continued, to lower its costs is by reducing the number of commissions and boards, through abolishment, consolidation and coordination.

The department of state oil inspector and state treasury agent were pointed out as "political plums" that could well be abolished without curtailing state offices, boards and commissions," the attorney general declared. "There are some commissions that must be retained, some that are doing good work and have been."

"Will anyone tell me why we need a state oil inspector as a separate state officer? or why we need a state treasury agent as a separate state officer? We need people to do real work. Every duty of the two offices that I have named, could be discharged by deputies in the office of the secretary of state or the dairy and food commissioner.

"There is no reason under the sun why the office of legislative reference librarian, commonly known as the bill factory, and the office of revisor of statutes could not be consolidated and there you would make room in the capitol to bring back some of the departments that have overflowed." The administration of the state government would be bettered, by such consolidation. It would mean cost efficiency as well as real economy.

Today Attorney General Morgan drives far and makes many speeches, including "Tegerton," Wittenberg, Eland, Barnwood, Mattson closing with a night meeting at Antigo. Tuesday he speaks at Elcho, Cranston, Eau Claire and closes the day at Rhinelander. Wednesday there are meetings at Tomahawk, Merrill, Brokaw, Waunakee. Thursday Morgan goes into Portage county and closes the day at Wisconsin Rapids. Friday Attorney General Morgan will speak at Camp Douglas and Saturday speak at Tomah, New Lisbon, Mauston and Elroy.

Cambridge University Weakening Under Fire of Woman Applicants

London.—Oxford University now admits women freely to its degrees and to university membership, but Cambridge still holds its doors against them. Naturally the women feel a bit grateful for such glimpses. They want the doors unlocked.

The women from the Cambridge Colleges of Newham and Girton have demanded admission to degrees and University membership on the same terms as men. Not long ago some 2,600 of them signed a petition to this effect. The reply given by the University was polite, but unsatisfactory.

Vote on Proposals. Within the last two years Cambridge has voted, and counteracted on various proposals to admit women. The only proposal which it has actually agreed to is to this practical effect has not yet been given—is that women who are qualified for degree status may obtain "titles of degrees," but not real degrees.

In making this half-hearted offer Cambridge is proposing to treat women just as it formerly treated Jews and Nonconformists, whom it so tried to satisfy with the titular degree until Parliament stepped in.

Black Cats Smash Pecatonica - Net Club Is Victorious

FELINES BATTLE TO 10-3 WIN IN AIR TIGHT BALL

After dropping the last two home games, the Black Cats came into their own and by playing air-tight ball and using the willow in a vicious style, defeated the straggle Pecatonica team Sunday by the score of 10 to 3, which is only the second defeat for that aggregation this year, their other defeat being at the hands of Freeport, which played the Stoughton team a few weeks ago.

Cats pitched a new lineup, which worked far better than any so far this season. Schoenig playing first base, and being a right-handed pitcher, while Claworth was shifted to third where he made two beautiful catches. Ruppacher in center field, and a long fly, besides making two hits which were very good. Ruppacher and Treverath worked a pretty hit and run play.

The box score:

GORDON GUILBERT, president of the Wisconsin state amateur title, competed in the Michigan state meet the other day. Gordon registered as coming from Saginaw, Mich. The question arises, can he compete in the Wisconsin meet this year?

BILLY SIXTY, a Milwaukee news writer, says he cannot. Sixty declares it would not be fair for the other competitors. If Mr. Guilbert were a permanent resident of Michigan, with no connection of any kind in Wisconsin, Sixty would be right.

BUT GUILBERT is closely related with Wisconsin. A Michigan golfer to compete there, when a resident of another state, what has that to do with Wisconsin? The state champion, as far as known, has not violated any Bagger rule.

THE RUNNER-UP in last year's Wisconsin golf meet was D. A. Matteson, representing the Janesville Golf club. Matteson is not a permanent resident of this city, but he was permitted to play under the rule of non-resident membership.

THE SITUATION of Guilbert, therefore, is practically the same as that of Mr. Matteson. If the rule works one way, it must certainly work the other way just as smoothly. Under this condition, it is hard to understand what Sixty is driving at.

Roger Conti made 4,000 points in 57 innings at 18.2 ballgame, average of 59.7, for new world's record.

Australia looks good to make tough fight for Davis net cup; Australia and French sailed for U. S. Sunday.

Argentine's polo team, after beating English, now to invade U. S.

Diamond Sparkles - After losing last to the Braves, the Giants came back to win in National League game by 3-point margin, Bill Ryan having twisted Giants to win over Cincinnati.

After making four straight from the Braves, St. Louis lost. The Browns outbatted the Tigers but seven errors, including three by Sisler, gave game to Detroit. Tanks came within game and lost, 1-0.

After losing at St. Louis, the outfield marked White Sox 10 frame win from Cleveland, second straight reverse for Indians after they had won 12 straight.

Washington posted third Philadelphia pitcher for victory. Aldridge held Brooklyn to five hits, Cubs winning. Rockford dropped two to Molokai.

Beloit wins two from Perrins' Marquette Monarchs, 9-5, 4-3.

Flight Talk - Leonard scales 134 1/4 for Tondler - Bob, Roger knocked out Eddie Josephs at New York (2).

Samson Tractors Fight; Lose, 12-7

Whitewater - Janesville's revamped Samson Tractors came here Sunday and dropped by the wayside before the local American Legion, 12 to 7. The Tractors put up a great fight.

JOHNSTOWN TEAM SMOTHERS CUT-OFFS

The Johnstown baseball nine won from Evansville, Sunday afternoon, 15 to 8. The Johnstown boys batted Evansville hard in every inning, while Gouley kept the 10 hits made off him well scattered. Next Sunday the Johnstown team will meet Jack Mullens' Harmony nine.

(SPECIAL TO THE GAZETTE)
Fort Atkinson - Once again a surprise came up in the Jefferson county circuit when Watertown was knocked off by Lake Mills, 8 to 5. Fort took advantage of this slip by smothering Johnston Creek, 2 to 2, and kept the tie for first.

The Fort started out with nine runs in the first. They were come with two runs in each of the second and third and then added six in the fourth. Fort took it easy the rest of the way. Brown featured with a single, a double and a triple and State won in a unusually good form despite numerous errors on the part of his mates during the first three rounds.

Post of no-hit no-run game, was on the mound for Magnolia and hurled good ball until the sixth, when the Moose got after him for five runs during the rest of the game.

Magnolia was presented with four runs early in the battle by the locals' miserable support. The game was won in the ninth when Pemberton smashed a triple scoring Bick a good sized crowd was out to witness the battle. The Moose will hold a practice at the Samson diamond Tuesday night.
